Stash Buster Projects

While specific product brands are listed for each card, all the projects in this class are ideal stash busters. If you can't find the exact supplies listed, there's a good chance you already have something in your stash that will work equally well! Or create your own unique card by choosing papers and embellishments to suit any card-giving occasion.

Shop for recommended materials at AnniesCraftStore.com or at your local craft store. If you cannot find the exact supplies listed, substitute following the specifications given in the materials list (weight, fiber, size, color, etc.). You can take any class without making the projects. Class skills can be learned by working with materials you have on hand to make swatches, blocks or small samples.
